

Grafton Rowing Club Training Course Overview

Grafton Rowing Club - Water Safety Rules

1. Rowers should observe traffic flow as indicated by green arrows (upstream) and red arrows (downstream);
2. Rowers should refrain from using the centre of the river, designated a Safety Zone, to allow other river users safe passage and to prevent collision with other rowers;
3. When changing direction crews are to proceed to the opposite side in the shortest possible route and give way to all traffic;
4. Always return to the GRC shed from the bridge end; and
5. Rowers please note the upstream (green arrow) course east of the Grafton Bridge transits past moored craft.
